Country of origin for the 109 tested samples

Test Results

Test Results for the 109 Electrical Haircare Products

Types of hazards identified

- ▶ Electric shock
- ▶ Burns
- ▶ Poor safety-standard requirements in user instructions

CONSUMER ADVICE

- ❖ Ensure that hair dryers, curling irons and hair straighteners are unplugged from the mains supply immediately after use.
- ❖ Allow products to cool down on any heat mats or heat proof pouch supplied with the products. Hair straighteners and curling irons reach temperatures above 200°C and may take at least 30 minutes to cool down after use, do not leave them unattended when not in use.
- ❖ Always read the user instructions provided and keep them for future reference.

JA2016 received funding from the European Union in the field of Consumer Policy (2014-2020). This infographic report arises from the Joint Market Surveillance Action on General Product Safety Directive Products - JA2016, which received funding from the European Union in the framework of the 'Programme of Community Action in the field of Consumer Policy (2014-2020)'.
